Based on the finding that Nick Carter and Nick Brana both claim to have had the same job in 2016 for Bernie Sanders, I conclude that Hillary Clinton actually did the hiring for Bernie Sanders while they ran against each other in the 2016 primaries. She chose Nick Carter for NCPO.

Brana was the National Director of Political Outreach, an executive position, not an internship. He was also hired as an employee by Sanders' Our Revolution. His internships were with John Kerry and other establishment Democrats. We cannot accept these lies in defense of Sanders.

Chilean constitution rejected: Did not nationalize any industry, even copper mining and water, much less banking. It did not guarantee full employment. Did not end the drug war. Did not dismantle the old military. Pinochet favored capitalism, the new must stand for socialism. 1/2
